FRONTEND DEVELOPER

As a Frontend Developer, I specialize in creating immersive user experiences with technologies like React.js, Vue.js, and Flutter. With two years of experience, I've delivered products to clients globally, from startups to corporations. Skilled in HTML5, CSS3, JavaScript, and TypeScript, I focus on blending aesthetics and functionality. Eager to adapt to new technologies, I strive to create digital products that are intuitive and visually captivating.

KEY COMPETENCIES

Responsive Design
Proficiency in Core Technologies
Framework and Library Expertise

Version Control/Git
Performance Optimization
Cross-browser Compatibility

API Integration
